

Pastry Pirates

CAST OF MAIN CHARACTERS

JEFFY

Protagonist of our story, he is currently living on his own within the Clockwork Garden. It has proven to be a fairly good spot to make a living due to Sable's love of baking, and Muu's love of all things food. Jeffy was able to move to the garden because the garden contains a portal of one of the fabled "seven puddles" of pixie lore.

THE MADELINE

Jeffy's trusty ship, no pirate can be a pirate without their own ship! The Madeline sails across the seas, puddles, and portals with Jeffy, and has a mind of its own at times. The Madeline is not just any ordinary ship, but has some "slight modifications" to it to help Jeffy along in his journeys throughout the world.

MAGGI AND MUU

Two moogles of the clockwork garden that live inside the tree stump. They watch over the garden to make sure that all is well within its borders. Maggi is a very quiet, laid back moogle who likes to tend to the flowers and various plants within the garden. Muu on the other hand, spends most of his time eating whatever comes off of said plants, which has caused him to become a very chubby moogle, who can barely fit through the doors.

NADIA

Nadia is an extremely relaxed water fairy who simply likes to let life flow around her. She spends most of her time hanging out at Rango's house, and helping him organize some of his famous wild parties, and crazy puzzles and games that are set up in the garden. .

VESTA

A fire fairy with a bit of an attitude. She is rather unsocial to the other fairies in the village, and tends to avoid most functions within the community. She considers the garden to be far too silly of a place for such a sophisticated fashionable icon such as herself to live in.

SUDZ

This large white dragon seems to be looking for someone....

SETH AND FLOYD

Seth is a ~~successful....struggling,~~ starving artist who simply wants his big break in the world of art. He is convinced that the fairies in the garden simply aren't sophisticated enough to understand his artwork and style of giving pieces of art a "deeper meaning" Floyd is his supposed....manager, but...he's simply a plastic flamingo. Seth is convinced that Floyd speaks to him.

SABLE

An amazing baker, and emerging star in the world of cake making, Sable is a dark fairy who loves making all manners of baked goods. She started getting interested in baking whenever she noticed the similarities between making potions and creating new recipes. Sable is very quiet and withdrawn, as her twin sister Lucinda has always overshadowed her, but she does have a rather mischievous streak that refuses to let her sister's bragging win all the time.

RANGO

Rango is the resident event planner in the garden. He enjoys setting up games and challenges for the other fairies to test themselves against. Besides setting up games, he also tends to throw extremely lavish parties every weekend that the other fairies are sometimes....a bit afraid to attend (with very good reason, we won't speak of the giraffe incident as this game is intended to be appropriate for all ages).

CECIL

Cecil is the current record holder of the "Fastest Fairy" challenge that Rango has set up within the garden. With his skills and agility, he usually bests all the fairies at both flying and feats of balance. Cecil however, even with his popularity in the fairy community, is always moping about on a cloud thinking about a certain fiery fairy.

ANGRY HANK

Who is this mysterious bird, and.....
WHY IS HE SO ANGRY?
